

Modbury School - Preschool to Year 7

Cyber Safety Agreement

At Modbury School every teacher will provide supervision during Internet and ICT use. To prevent students accessing inappropriate Internet sites, filters are provided by Department of Education and Child Development(DECD).

The Network Administrator may track all onsite computer, Internet and email usage. Emails containing offensive language/content will be logged and forwarded to the principal.

At times students may be required to access email or Internet searches for homework. We actively encourage parents to supervise online activity at home, however, parents/caregivers must be aware that Modbury School is unable to filter websites at home and children should be supervised.

It is anticipated that students use of the Internet, email and other ICT will increase as children progress through school. This student agreement may be subject to renewal annually as the technology landscape and our usage changes.

Staff will discuss the Cyber-Safety Agreement each year to reinforce the responsible use of these resources. These cyber-safety strategies apply to any ICT. Students will not use school ICT equipment until Parents/Caregivers and the student themselves, have signed the User Agreement Policy and the completed form has been returned to school.
